B) PaaS - Platform as a Service - Deployment of a Flask Application using PythonAnywhere

1.

The screenshot shows the PythonAnywhere dashboard. At the top, there's a navigation bar with links: Dashboard, Consoles, Files, Web, Tasks, Databases. Below this, a green notification bar states: "Your email address has been confirmed. You can manage your email preferences from [this page](#)." The main heading is "Dashboard" with a welcome message "Welcome, PES2UG23CS044". Below this, there are two status bars: "CPU Usage: 0% used - 0.00s of 100s. Resets in 23 hours, 59 minutes" and "File storage: 0% full - 60.0 KB of your 512.0 MB quota". To the right of these is a blue "Upgrade Account" button. The dashboard is divided into four main sections: "Recent Consoles" (with a "+ 5 -" button and the text "You have no recent consoles."), "Recent Files" (with a "+ 5 -" button and the text "You have no recently edited files."), "Recent Notebooks" (with a "+ 5 -" button and a message: "Your account does not support Jupyter Notebooks. Upgrade your account to get access!"), and "All Web apps" (with the text "You don't have any web apps."). Below the "Recent Consoles" section, there's a "New console:" section with buttons for "\$ Bash", ">>> Python", and "More...". Below the "Recent Files" section, there are buttons for "+ Open another file" and "Browse files". Below the "Recent Notebooks" section, there's a button for "Open Web tab".

2.

The screenshot shows the PythonAnywhere "Files" page. At the top, there's a navigation bar with links: Dashboard, Consoles, Files, Web, Tasks, Databases. Below this, there's a blue bar with links: "Send feedback", "Forums", "Help", "Blog", "Account", "Log out". The main heading is "Files" with a sub-header "Open Bash console here" and a status bar "0% full - 176.0 KB of your 512.0 MB quota". Below this, there's a "Directories" section with a text input "Enter new directory name" and a "New directory" button. To the right, there's a "Files" section with a text input "Enter new file name, eg hello.py" and a "New file" button. Below this, there's a list of files. The first file is "flask_app.py" with a download icon, a trash icon, and a timestamp "2026-01-13 16:36" and size "1.4 KB". Below the file list, there's a yellow "Upload a file" button with the text "100MiB maximum size".

3.

The screenshot shows a web browser window. The address bar shows the URL "pes2ug23cs044.pythonanywhere.com". The browser has several tabs open, including "pes2ug23cs044.pythonanywhere", "buddy4study.com/a...", and "State Scholarship Po...". The browser's toolbar shows various icons for navigation, search, and security. The page content is partially visible, showing the text "Discipline is choosing between what you want now and what you want most, and that choice defines your future."
